Instead of settling into bed Sunday night, San Antonio party-goers stayed up late for Silent Disco, the annual Labor Day Weekend party hosted this year at The Well.

Silent Disco has the look and feel of a high-volume party, except it's not. Attendees wear wireless headphones and choose what music they'd like to hear from three different channels. More than 50 DJs, including headliner DJ LAZ, participated in the event.

The fifth-annual installment of the event also served as a donation drive for victims of Hurricane Harvey.

See what went down at the Sunday night dance party in the slideshow above.
